

# Branson Rose

Junior Front-End Developer

Ontario, Canada (Remote) | [branson@bransonrose.dev](mailto:branson@bransonrose.dev)

GitHub: <https://github.com/BRoseFE> | Portfolio: <https://bransonrose.dev>

## SUMMARY

Junior Front-End Developer building responsive, accessible user interfaces with HTML, CSS, JavaScript, and React. Experienced working remotely and collaborating asynchronously to deliver clean, maintainable front-end code.

## TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React, React Router

Styling: CSS Modules, Flexbox, Grid, Responsive Design

Tooling: Git, GitHub, npm, Create React App

Accessibility: Semantic HTML, ARIA, Keyboard Navigation

## PROJECTS

### Personal Portfolio Website

- <https://bransonrose.dev> - <https://github.com/BRoseFE/portfolio>

- Built a responsive personal portfolio using semantic HTML and modern CSS.
- Implemented keyboard-accessible navigation and focus states.
- Applied responsive layouts for mobile, tablet, and desktop breakpoints.
- Optimized typography and spacing for readability and clarity.

### Little Lemon Restaurant (Fictional)

- <https://little-lemon-whistler.netlify.app> - <https://github.com/BRoseFE/little-lemon-restuarant>

- Built a multi-page React application with reusable components.
- Implemented client-side routing using React Router.
- Developed controlled form inputs with client-side validation.
- Applied responsive layouts using Flexbox and CSS Grid.
- Ensured accessible navigation using ARIA attributes and semantic HTML.

## EDUCATION & CERTIFICATIONS

Front-End Developer Professional Certificate — Meta (Coursera), 2026

Additional Coursework: Cybersecurity (Coursera), 2024

## ADDITIONAL

- Eligible to work remotely as an independent contributor.
- Comfortable with written communication and participating in code reviews.
